

CAPSULA

MODULAR PERIMETER SECURITY TAILORED FOR YOUR NEEDS IN ANY FIELD!

The **CAPSULA System** is an intricately tailored platform specially designed to meet your operational needs in the field, rapid deployable, making it the ideal choice for securing your perimeter. This complete modular platform can be customized based on your unique requirements, ensuring a perfect fit for various settings. Whether your perimeter spans, urban landscapes, critical infrastructure, or remote wilderness, CAPSULA guarantees comprehensive security coverage.

CAPSULA isn't just a security solution; it's a personalized and highly effective platform designed to integrate whatever you need into your unique security strategy serving the needs of:

- Law Enforcement Agencies
- Private Perimeter Infrastructure
- Defense & Military
- Special Units

The integration of diverse components, transforms CAPSULA into a versatile and modular solution, ready to meet the unique demands of different operational, ensuring perimeter security, efficiency, and flexibility.

CAPSULA: YOU PLAN, WE EXECUTE!

The **CAPSULA System** stands as a meticulously crafted, personalized modular system, comprised of five key components:

Platform:

The CAPSULA System offers adaptable platform tailored to diverse operational needs:

- **Portable:** Ideal for on-the-go security and rapid deployment.
- **Vehicle:** Offering mobile security solutions for diverse operational scenarios.
- **Airborne:** Providing elevated surveillance capabilities for expansive areas.

Powering Methods:

Choose from a range of power sources to suit your needs:

- **Solar:** Harness renewable energy for sustainable and eco-friendly power.
- **Electricity Power:** Ensure a reliable and continuous power supply.
- **Batteries:** Provide flexibility and autonomy in diverse environments.

Communication Systems:

Stay connected seamlessly with various communication options:

- **Cellular:** Utilize cellular networks for reliable connectivity.
- **Satellite:** Ensure communication in remote or isolated locations.
- **LAN, Wi-Fi:** Facilitate local and wireless communication.

Integrated Security Systems:

Tailor your security setup with a variety of best of breed features:

- **Cameras:** Ensure visual surveillance for comprehensive monitoring.
- **Short Range Radars:** Enhance threat detection in close proximity.
- **PA Systems:** Enable effective communication and alerts.
- **Customizable Security Systems:** Integrate tailored solutions for specific needs.

Complete C&C System:

A centralized interface for real-time monitoring, control, and decision-making.

About ARFG

A.R. Factor Group is a global HLS prime system integrator, providing simple solutions for complex challenges on a global scale. As a leading HLS integration company, we offer reliable, forward-thinking solutions. With unmatched experience and a commitment to excellence, we deliver!
